> An Expert's Opinion of Skin Diseases

A prominent national expert on skin diseases whose name you are familiar with says that in all his scientific experience he has never found so hard a disease to conquer as Eczema. Yet he does not hesitate to recommend ZEMO as a most successful remedy for the treatment of Eczema, itching skin diseases, dandruff, pimples, blackheads and all other diseases of the skin and scalp. He says that not only do its curative qualities make it popular but also the fact that it is a clean, liquid remedy for external use. A great improvement over the old style greasy salves and lotions which are not only unpleasant to use but do not destroy the germ life that causes the disease. ZEMO draws the germs to the surface and destroys them, leaving the skin clear and healthy. Can be used freely on infants. Mr. Kneblauch will gladly supply those who call with a free sample sabas Luna Martinez for divorce in the bottle of ZLMO and a booklet which explains in simple language all about | Genoveva B. Morales has filed suit for skin diseases and how to cure yourself
